

Lockout/tagout with system: 72/40 and 72IB/40 TITALIUM™

For industry and trade: With its solid lock body made of Titalium - a special aluminum - it is extremely heat resistant.

The ten colors available allow the locks to be assigned and differentiated by area or user. This makes this lock ideal for use in workplace security - for example, for locking out main switches. Series 72 and 74 locks can be combined with each other in a locking system.

With these colorful aluminum padlocks, ABUS provides security in industry and trade.

They can be used to secure: ulliDoors/liiliGates/liiliCabinets/liiliLockers/liiliTool boxes/liiliBasements/liiliSheds/liiliSwitchgears and much more/li/ul

They can be keyed alike upon request: With the lock number on the key, it is convenient to make more keys.

Technologies

- Lock body made from TITALIUM™ special aluminum – high security with low weight
- Hardened steel shackle with NANO PROTECT™ plating for extreme corrosion resistance
- ABUS precision 6-pin cylinder, can be rekeyed to match an existing key
