

OKT071R

7' SINGLE WEB RETRACTABLE REBAR HOOK

The Ritz Fall Protection 7ft Single Web Retractable Rebar Hook is a safety device for workers who perform work at height. The device is made of high-strength materials and meets all relevant safety standards. It is recommended for use in industries where work at height is performed.

FEATURES

- Includes a high-strength web retractable lanyard
- Weight capacity of 310 lbs and compliant with OSHA and ANSI standards for fall protection
- Ergonomic design for worker comfort and convenience
- Self-locking rebar hook for easy attachment to the worker's harness
- Retractable design keeps lanyard out of the way when not in use
- Suitable for a wide range of applications, including construction, maintenance, and inspection work
