## 7' DUAL WEB RETRACTABLE REBAR HOOK

The Ritz Fall Protection 7' Dual Web Retractable Rebar Hook is a fall protection system that includes two high-strength web retractable lanyards with rebar hooks that can be attached to a variety of anchor points. This retractable provides reliable and durable protection for workers who need to work at height.

### FEATURES

- Includes two high-strength web retractable lanyards with rebar hooks
- Weight capacity of 310 lbs and compliant with OSHA and ANSI standards for fall protection
- Ergonomic design for worker comfort and convenience
- Retractable design keeps lanyards out of the way when not in use
- Suitable for a wide range of applications, including construction, maintenance, and inspection work

### TECH SPECS
