AUTO LOCK CARABINER

2" OPENING

The Ritz Fall Protection Carabiner Auto Lock with a 2" opening is a carabiner for fall protection systems. It is a reliable and cost-effective solution for workers needing to perform work at height, and its large opening makes it versatile and suitable for a wide range of applications, including construction, maintenance, and inspection work.

FEATURES

- Auto-locking mechanism provides extra safety
- Easy one-handed operation
- Weight capacity of 5000 lbs
- Zinc-plated finish for corrosion resistance
- Reliable and cost-effective solution for workers who need to work at height
- Large opening accommodates a wider range of anchor points and attachment hardware
- Suitable for a wide range of applications, including construction, maintenance, and inspection work
