

BullShark™ 393 Canadian Gloves

DESCRIPTION & FEATURES

The BullShark™ gloves are crafted from high-quality cow grain leather, known for its durability, flexibility, and abrasion resistance.

The back of the gloves is made from Hi-Viz fabric improves safety by making the wearer more visible to others in the work environment. The gloves feature a safety cuff that extends beyond the wrist, providing added protection and shielding against debris and potential hazards while ensuring a secure fit and offers additional wrist coverage for increased safety during work activities.

These gloves are suitable for various industries, including construction, manufacturing, and general maintenance. They are available in a unit of sale of one dozen and a case pack of six dozen.
