

RTZ50LEASH

50' LANYARD LEASH

The Ritz Safety Self-Retracting Lifeline 50ft Leash allows the SRL's line to retract back into the housing during non-use and provides a way to retrieve the SRL that is out of reach, when needed. Constructed using a nearly indestructible, high impact-resistant nylon housing to withstand the elements and smooth, corrosion-resistant stainless steel and aluminum internal components and round edges to increase durability. Dual swivels (unit top and swivel hook) and carabiner included on all models. Requires no annual re-certification. For at height use with SRL's in industries such as construction, roofing, mining, general industrial, oil & gas, transportation and utilities.

FEATURES

- Durable nylon housing with metal components
- Dual swivels and carabiner included
- No annual re-certification needed
- Designed for RTZG50S
