

RTZ60CLL

60FT HORIZONTAL CABLE, 2 MAN

Introducing the 60ft Horizontal Cable Lifeline, your go-to solution for temporary fall protection in elevated work environments. This robust lifeline is designed with precision to provide maximum safety and versatility on the job. With a generous length of 60 feet, it's capable of accommodating up to 2 users simultaneously, ensuring that your team can work efficiently and securely. Equipped with swivel snap hooks at both ends, this lifeline allows for easy and secure attachment to anchor points, guaranteeing a dependable connection. Crafted from 8mm (5/16") thick steel cable, it offers exceptional durability and strength to withstand the rigors of demanding work conditions. Elevate your safety standards with the 60ft Horizontal Cable Lifeline, the ultimate choice for secure, temporary fall protection.
