WEB CONCRETE ANCHOR STRAP 6FT W/LOOP

The Ritz Fall Protection Web Concrete Anchor Strap 6ft w/Loop is a high-strength polyester webbing strap that measures 6 feet in length, with a loop end. It has a load capacity of 5,000 lbs and meets or exceeds relevant safety standards, making it a reliable and effective fall protection solution for workers at height in construction and industrial settings.

FEATURES

- Made of high-strength polyester webbing
- Resistant to abrasion and UV radiation
- Measures 6 feet in length
- Features a loop at both ends for easy anchoring to concrete structures
- Provides a secure anchor point for fall protection systems
- Can be used in construction and industrial settings
- Meets or exceeds relevant safety standards and regulations

TECH SPECS

Material	48 mm Polyester Webbing
Length	6 ft.
Minimum Tensile Strength	5,000 lbs
Static Load Capacity	5,000 lbs
Standard	Conforms to OSHA and ANSI Z359.18 -2017
