## WINCH 100' W/ BRACKET

Ritz Fall Protection introduces our innovative 100' winch with bracket, designed to meet the highest safety standards for material or man lifting rescue operations. This exceptional winch comes equipped with an Independent Reel Mode, ensuring quick and easy operation while significantly reducing the dynamic load impact on the user in case of a fall. Furthermore, its universal mounting bracket is compatible with the double pulley head of the Tripod. It ensures efficient and safe rescue operations in various industrial settings.

### FEATURES

- 115 ft. galvanized steel wire rope for extended reach
- Equipped with Swivel Steel Snap Hook as connector
- Efficient handle rotating mechanism for smooth operations
- Equipped with universal mounting bracket compatible with lower bracket assembly bracket on the leg of double pulley head Tripod and Megapod
- Handle rotating mechanism for lifting or lowering.
