

BullShark™

Stitched Leather Hammer Holder

TECH SPECS

Material	Heavy top grain leather
Thickness	3.5mm
Metal Components	Nickel-plated metal
Belt Insertion	2"-3" inch slot for belt insertion

DESCRIPTION & FEATURES

The BullShark™ Stitched Leather Hammer Holder is a durable and reliable tool accessory designed to securely hold hammers. The hammer holder features a nickel-plated metal holder that firmly grips hammers of various sizes, preventing them from slipping or falling during use.

The hammer holder includes a 2"-3" inch slot for easy belt insertion. This slot accommodates different belt sizes, providing versatility and ensuring a secure and stable fit.

The BullShark™ Stitched Leather Hammer Holder is made of heavy top grain leather with a thickness of 3.5mm. It features a nickel-plated metal holder and rivets for secure hammer storage. The inclusion of a belt insertion slot allows for easy attachment to belts or waistbands. This hammer holder combines durability, reliability, and versatility to ensure the secure and convenient storage of hammers during work.
