STEEL CARABINER CONNECTOR

The Ritz Fall Protection Steel Carabiner Connector is a high-strength, durable, and versatile component used in various industrial and outdoor applications. This carabiner connector is suitable for heavy-duty tasks. Overall, the Ritz Fall Protection Steel Carabiner Connector is a reliable and robust connector that meets the safety standards for industrial and outdoor activities

FEATURES

- The Ritz Fall Protection steel carabiner connector is made from high-quality steel
- The carabiner features a screw-locking mechanism that ensures secure attachment to ropes, anchors, and other connection points
- It is designed with a smooth and wide gate opening, allowing for easy clipping and unclipping of SRLs, rope, and gear

TECH SPECS

Material	Steel
Finish	Zinc Plated
Gate Opening	0.87 in // 22 mm
Maximum Load Capacity	5620 lbs // 25kN
Weight	7.1 oz // 200 g
Length	4.6 in // 117 mm
Width	2.87 in // 73 mm
Compliance	ANSI Z359.12-2009
Locking Mechanism	Screw-Locking
