DESCRIPTION & FEATURES

The BullShark™ 10 Pocket Leather Nail and Tool Pouch is a durable and versatile tool organizer made from top grain smooth black leather, with a heavy thickness of 2.4 mm for long-lasting use.

It features a heavy nylon web belt handle for easy one-handed carrying, providing convenience and comfort for professionals on the job. The pouch also includes heavy yellow nylon 2-inch web belts on both sides to securely hold spud wrenches and other tools, ensuring quick and accessible storage.

The pouch has a 2"-3" inch slot at the back for easy belt insertion, allowing it to be securely attached to a belt or waistband. Its double stitching with yellow 9-ply thread enhances its strength and durability, preventing seams from unraveling or tearing under pressure. Additionally, the pouch includes a nickel-plated metal hammer holder and a tape holder designed to accommodate 8-10-meter tapes, providing secure storage and easy access for both tools.
