Guardrail Safety Boots

ITEM

SAFBOOT

UOM

EACH

Product Description

The Safety Boot Guardrail System provides contractors with a proven method for constructing versatile, freestanding temporary guardrails and stair rail systems that exceed OSHA guardrail strength regulations. The Safety Boot Guardrail System provides reliable and affordable fall protection on all of your jobsites.

Features

- Two 2x4's create a rigid post - Leave attached for future use
- High impact polymer construction is lightweight (2-1/2 lbs.), weather resistant yet extremely strong
- Toeboard slot design eliminates tacking
- Eliminates bracing. 10-1/2" diagonal footprint
- Anchors into most surfaces, including concrete
- Instant toeboards - 2x4's meet Federal OSHA requirements
- All critical stress points reinforced with a double polymer thickness

Application's / Industry

- Construction
- Transportation
- Oil & Gas
- General Industry
- Wind Energy
- Utilities
